Brigade **T&O**

MULTI INSECTICIDE

PRODUCT DESCRIPTION

Brigade® T&O MULTI-INSECTICIDE (Turf & Ornamental) is an all-in-one Multi-Insecticide with a broad spectrum of activity on over 30 common house and outdoor pests. Brigade® T&O which is a fourth generation synthetic pyrethroid formulation, has been specifically formulated for fast knockdown and long residual activity indoors and out. It's unique water based formulation makes it non-staining, odourless and user friendly and it will not harm plants that are sprayed. It is a non-restricted product and as such can be purchased by the general public.

WHERE TO USE

Brigade® T&O MULTI-INSECTICIDE is registered for the control of a wide range of adult household insect pests including mosquitos, nuisance and biting flies, biting midge, spiders, cockroach, a variety of ant species, ticks, fleas and post construction subterranean termite control. In addition it also has registrations for the control of a number of common turf and ornamental pests including african black beetle, lawn armyworm, Argentine stem weevil, caterpillars, aphids, mites, white fly, mealy bug, thrips and wasps.

This product is ideal as a multi-insecticide spray for external and internal use in domestic, commercial, public and industrial buildings and their surrounds including turf and gardens.

FEATURES & BENEFITS

- *Non-Restricted*
- *Broad spectrum multi-insecticide*
- *Fast knockdown with long residual*
- *Rainfast and stable in sunlight*
- *Odour free and non-staining*

**BRIGADE® T&O MULTI-INSECTICIDE
BARRIER TREATMENT FOR VECTOR MANAGEMENT**

Vector Management for Biting Midge and Mosquitoes

EXTERNAL:

Apply Brigade® T&O MULTI-INSECTICIDE to common vector insect harborage sites such as fences, bushes, shrubs, shady and damp areas around buildings

For perimeter or harbourage treatments, apply the prepared emulsion to a band of soil or vegetation two to three meters wide around and adjacent to the structure. Also treat the foundation of the structure to a height of approximately one metre. Use a spray volume of 5 to 10L per 100m².

INTERNAL:

Apply prepared emulsion to indoor surfaces where vector insects rest or harbour such as: under tables and chairs, behind and under sinks, indoor plants etc

DO NOT apply Brigade® T&O MULTI-INSECTICIDE within 2 metres of a fishpond or water containing fish or aquatic species.
