

DEMAND the very best

Active Constituent(s):
25g/L lambda-cyhalothrin

Formulation Type:
Capsule suspension

Resistance Group:

GROUP 3 A INSECTICIDE

Chemical Group Of Active:
pyrethroid

For control of cockroaches, spiders, flies, ants, fleas, silverfish and mosquitoes.

Registered For:

Commercial Use

Domestic Use

Label 

MSDS 

AQIS 

Pack Sizes:

1 L

Overview

DEMAND CS INSECTICIDE is a capsule suspension formulation that is virtually odour-free and avoids leaving visible residues, without compromising the long-term performance on all surfaces.

Recommended Uses

For use by Professional Pest Control Operators only. DEMAND CS controls cockroaches, spiders, fleas, ants, flies, silverfish and mosquitoes.

Advantages

DEMAND CS:

- unique capsule suspension technology for longer-lasting external protection
- weather resistant
- domestic, industrial and commercial situations
- long residual effect

Benefits

DEMAND CS:

- for all external perimeters and indoor applications
- non flushing
- fast knockdown
- controls a wide range of insect pests
- autodose bottle ensures accurate mixing
- no clogging or nozzle wear
- non-staining
- no visible residues
- no adverse odour
